

## Air Clean

Art.: 04.0160.9999

Aerosol can 150 ml

Air Clean is an extremely effective cleaner for A/C and heating system ducts as well as vehicle interiors. Air Clean eliminates in a simple and easy way unpleasant odours and leaves behind a pleasant neutral smell.

Base:	Mixture of alcohols and disinfectant
Density:	710 kg/m <sup>3</sup>
Consistency:	Quickly evaporating spray
Solvents:	Mixture of aliphatic solvents
Flash point:	< 0°C
Application conditions:	+5°C to +30°C
Type of surface:	Air ducts of A/C and heating systems
Application method:	<p>Turn the ventilation system onto heating and circulation, turn the air flow to dashboard air grids and let the system run with the vehicle engine switched off (if the vehicle goes into sleep mode after some time, it is however recommended to let the engine run during the treatment). After 5 minutes, place the Air Clean, on the supplied stand, in the passenger foot well and activate the spray nozzle by pressing until it locks. Exit the vehicle, close the doors and let the spray circulate throughout the vehicle. Open the windows or doors after 15 minutes and ventilate the vehicle for half an hour. To keep the ventilation system working to its optimum, this treatment should be repeated frequently.</p> <p><u>Attention:</u> If there is an interior filter on the inside of the vehicle, this filter should be removed before starting the treatment!</p>
Cleaning of hands:	With Innotec <a href="#">Safe Hand Clean Plus</a> and water
Shelf life:	2 years in original, unopened packaging
Storage conditions:	Store cool and dry
Type of batchcode:	F
Other details:	Open the windows or doors after the treatment and ventilate the vehicle for half an hour.
EAN Code:	5400563018729

This technical info sheet replaces all previous versions.

All information is supplied without obligation and based on our knowledge and experience with the product under normal conditions. In practice, the information supplied can in no way replace the tests that need to be performed before first use of the product. Only prior testing of the product can prove whether the product is indeed suitable for the intended application (or not). Thus, we cannot accept any responsibility in case our

products are not used in compliance with the advices given.

If the product should not meet the quality requirements, we will only reimburse up to a maximum of the purchase price of the product. We accept no responsibility whatsoever and shall under no circumstances be liable for damage or consequential loss arising from the use of the product.

For information concerning safe use and storage, please refer to the safety data sheet of the product concerned.
