

TECHNICAL INFO

PE100

Art.: 03.1104.9999

Aerosol can 500 ml

PE100 is specially developed to protect plastics against outside influences. The product penetrates into the molecular structure of the plastic, so it offers protection and permanent flexibility from the inside out, and helps the plastic retain its natural shine.

Base:	Silicone oils, mineral oils and additives
Density:	710 kg/m ³
Consistency:	Liquid (ready-to-use in aerosol)
Viscosity:	± 15 mPa.s
Flash point:	< 0°C
Pressure resistance:	Minimum
Temperature resistance:	-20°C to >150°C
Water resistance:	Good
Acid resistance:	Resistant to diluted acids
Corrosion resistance:	Good. The product forms a water repellent layer and therefore contributes to corrosion protection.
Penetration ability:	Good
Percentage of greasing agent:	17%
Application conditions:	+5°C to +40°C
Type of surface:	Most plastics, rubber and metal
Surface preparation:	The surface must be clean, dry, free of grease and non-corroded.
Application method:	Shake can well before use. If using as a lubricant, spray PE100 directly onto the part for lubrication. If using as a plastic and rubber protector, spray PE100 directly on the surface (distance 15-20 cm) or apply with a cloth or sponge. For a beautiful shine, polish the plastic with a clean, dry Multi Wipe .
Cleaning of materials used:	With Innotec Multisol or Innotec Power Clean
Cleaning of hands:	With Innotec Safe Hand Clean Plus and water
Shelf life:	2 years in original, unopened packaging
Storage conditions:	Store cool and dry
Type of batchcode:	F

Other details: Avoid spraying on brake discs, steering wheels, foot pedals and surfaces to be painted.

EAN Code: 5400563016626

This technical info sheet replaces all previous versions.

All information is supplied without obligation and based on our knowledge and experience with the product under normal conditions. In practice, the information supplied can in no way replace the tests that need to be performed before first use of the product. Only prior testing of the product can prove whether the product is indeed suitable for the intended application (or not). Thus, we cannot accept any responsibility in case our products are not used in compliance with the advices given.

If the product should not meet the quality requirements, we will only reimburse up to a maximum of the purchase price of the product. We accept no responsibility whatsoever and shall under no circumstances be liable for damage or consequential loss arising from the use of the product.

For information concerning safe use and storage, please refer to the safety data sheet of the product concerned.
